

PRODUCT SPECIFICATION SHEET

Sensory Wall Tube

A white aluminium tube with long tails of sensory side sparkle fibre cascading down along its entire length.

Suitable for mounting on walls or above doors and windows. Produces a shimmering curtain of light which is safe to touch and play with, stand under and walk through.

The tube is finished in white as standard and when connected to a light source the tails will either continually change between all the available colours or can be left to shine in one static colour.

The PVC used in this product is also certified phthalate free.

TECHNICAL INFORMATION	
Outer Diameter	2.6mm
Core Construction	3 x 0.75mm chipped fibres
Core Material	Polymethyl methacrylate resin
Cladding Material	Fluorinated PMMA
Outer Sheathing	Phthalate free PVC
