

PRODUCT SPECIFICATION SHEET

Fibre Optic Star Ceiling

Create a starry night in your bedroom, bathroom or any room in the house by using one of our fibre optic Star Ceiling kits.

Consisting of mixed diameter fibre for a 'near + far' effect, each fibre optic star kit comes with small polycarbonate fittings for a neat finish in the ceiling or chosen material. Unlike other systems on the market, these fittings allow for the fibre to pass all the way through, maintaining the preferred intense star effect achieved when the fibre end is exposed while covering up any ragged edges from the drill hole. Alternatively drill 1mm holes in the ceiling and just use the fibres on their own for an intense point of light.

These fibre optic star ceiling kits are typically installed in:

- Ceilings** - access above ceiling is required to drill holes.
- Drapes** - pierce material and apply silicone to back to seal.
- Tiling** - fibre tails can be installed in grout between tiles.

PRODUCT ORDERING CODES

Ordering Code	Number of Fibre Optic Tails*	Fibre Tail Lengths	Light Source Options
SS112	112	1.25m to 2.0m	MicroLED 100P MicroLED 100PT MicroLED 100PC MicroLED 100PCT MicroLED 1000 MicroLED 4000
SS112+1	112	2.25m to 3.0m	
MS168	168	2.0m to 3.0m	
LS224	224	1.0m to 4.5m	
XLS336	336	2.0m to 7.5m	

*Fibre optic tails are mixed 0.75mm and 1mm diameter.
