

Product Specification

Fibre Optic Star Ceiling Rings

Our Star Ceiling Rings allow you to install a star effect ceiling even when there is no access above the ceiling.

Available in 2 colours - plum red and midnight blue the rings consist of a 1223mm diameter aluminium ring covered in a serge material. Fibre optic star points shine through the material creating a sparkling starry night effect

Typically installed above a child's bed, or on the ceiling of a playroom, the Star Rings offer an amazingly easy to install sensory lighting experience for children of all ages.

- Choice** - a choice of cloth colour and light source types.
- Function** - easy install and the option of full remote control colour change.
- Quality** - fully tested before despatch.
